SUMMARY

Nebraska institutions of postsecondary education showed a slight increase in the number of degrees and other formal awards conferred this past year: 15,421 in 1985 as compared to 15,297 in 1984. Bachelor degrees accounted for 54% of the total, followed by degrees and awards based on less than four years of work beyond high school, 29%; masters degrees 11%; and first-professional and doctoral accounting for the remaining 6%. Bachelors and masters degrees increased slightly (1%) while degrees and awards based on less than four years beyond high school and first-professional and doctoral degrees showed a similar decrease of 1%. Overall, a comparison of this year's data with that of last year is one of stability and similarity.

Statistics for the four postsecondary sectors for the one-year period were as follows: University of Nebraska awarded 6,567 degrees, an increase of 235 (4%). Nebraska State Colleges awarded 1,969 degrees, an increase of 14 (1%). Technical Community Colleges awarded 3,751 degrees, a decrease of 14 (no percentage change). Independent Colleges and Universities awarded 3,134 degrees, a decrease of 111 (-3%).

The major discipline groups showing the greatest growth were Business with 282 more degrees conferred over last year, an increase of 9%; followed by Humanities with 99 more degrees, an increase of 11%. General Arts and Sciences and Health showed the largest decreases, 99 (-14%) and 86 (-4%) respectively. Law showed the greatest percentage decrease, 13% (41 fewer degrees).

Looking over the past five-year period, 1,520 more degrees were granted by postsecondary institutions in 1985 than during the same period in 1981; 15,421 as compared to 13,901, an increase of 11%.

Some major changes have occurred within discipline groups over the five-year period. Business degrees increased by 891 (37%). Physical Sciences increased by 448 (21%). Education showed the largest decrease, 235 (-9%). Arts and Sciences decreased by 135 (-18%) reflecting a mandated change in role and mission in the Technical Community Colleges relating to academic transfer programs. The remaining discipline groups have remained relatively stable.

Ratio of males to females has shifted during the five-year period. In 1981, female recipients accounted for 49% of the total number while in 1985, females accounted for 51%.

PREFACE

The information contained in this report was supplied by the Nebraska institutions of postsecondary education as part of the Higher Education General Information Survey (HEGIS). The HEGIS Degrees and Other Formal Awards Conferred Survey is part of a series of surveys which the institutions file annually with the National Center for Education Statistics of the U.S. Department of Education. The Nebraska Coordinating Commission for Postsecondary Education coordinates the distribution and collection of these surveys to the institutions for transmittal to the National Center for Education Statistics (NCES).

The Commission wishes to acknowledge with appreciation the cooperation and time spent by the institutions in reviewing and verifying the data contained in this report.

INTRODUCTION

The number of degrees and other formal awards shown in this report are aggregated individual program totals for respective award levels. For example, the number of baccalaureate degrees reported in the major program area of Business reflects degrees conferred in three (3) possible degree programs for this program area: (1) Business Management, (2) Business and Office, and (3) Marketing and Distribution. The reviewer of these data is therefore cautioned to keep in mind that the program areas shown are major program areas rather than individual programs of study.

The data displayed in this report show the number of degrees and formal awards conferred at the following award levels.

1. Degrees and Awards Based on Less than Four Years of Work Beyond High School
 - a. Postsecondary Certificates and Diplomas (less than 4 years)
 - b. Associate Degrees
2. Bachelor's Degrees
3. Master's Degrees
4. First Professional Degrees
5. Doctorate Degrees

Each of the degree levels has a number of individual programs of study, or student majors, available for institutions reporting. These have been aggregated to a general program area.

Table 2 shows the number of degrees or awards each institutional sector conferred during the respective reporting period by major discipline groupings. These major groupings were derived by combining various segments of the HEGIS form.

The following pages list the components of each major discipline group:

<u>General Program Area</u>	<u>Discipline/Program</u>	<u>HEGIS Classification</u>

DEGREES AND OTHER FORMAL AWARDS
CONFERRED BY NEBRASKA INSTITUTIONS OF POSTSECONDARY EDUCATION
1980-81 Through 1984-85

The following five (5) tables show the number of degrees and other formal awards conferred by Nebraska institutions of postsecondary education during 1984-85, 1983-84, 1982-83, 1981-82 and 1980-81. Each table has the same formate with instructional programs described on the left margin (rows) and the institutions (designations are abbreviated), and institutional sectors at the tope of the tables (columns).

The following abbreviations are used for purposes of designating the institutions.

The University of Nebraska

UNL	University of Nebraska - Lincoln
UNO	University of Nebraska at Omaha
UNMC	University of Nebraska Medical Center

Nebraska State Colleges

CSC	Chadron State College
KSC	Kearney State College
PSC	Peru State College
WSC	Wayne State College

Nebraska Technical Community Colleges

Cent.	Central Technical Community College Area
Metro.	Metropolitan Technical Community College Area
M.P.	Mid-Plains Technical Community College Area
N.E.	Northeast Technical Community College Area
S.E.	Southeastern Nebraska Technical Community College Area
West.	Western Technical Community College Area

Nebraska Independent Colleges and Universities

Belv	Bellevue College
BCCN	Bishop Clarskon College of Nursing
CSM	College of St. Mary
CTC	Concondia Teachers College
Creig	Creighton University
Dana	Dana College
Doan	Doane College
Grace	Grace College of the Bible
Hast	Hastings College
Mid Lu	Midland Lutheran College
NCC	Nebraska Christian College
NWU	Nebraska Wesleyan University
PVB	Platte Valley Bible College
Union	Union College
York	York College
NICC	Nebraska Indian Community College

SUMMARY

The pattern of declining enrollment of first-time freshmen continues to be evident in fall headcount enrollments in Nebraska institutions of postsecondary education. A decrease of 2,259 full-time freshmen over a five-year period was reported, 15,488 in 1981 as compared to 13,229 in 1985, a 14.6 decrease.

A trend in the relationship between full-time and part-time students should be noted for the same period. In 1981, full-time students represented 61% of the total headcount enrollment. In 1985, that percentage had dropped to 58%.

Total headcount enrollment decreased by 160 students this past year, from 97,914 to 97,754, marking the first time that institutions have reported a decreased from the previous year according to records dating back to 1976.

Undergraduate enrollment decreased by 518 over the past year from 85,425 to 84,907, a decrease of less than one percent. Graduate enrollment increased by 372 students, from 9,731 to 10,103 (3.8%); while first-professional students decreased by 14, from 2,758 to 2,744, a decrease of less than 1%.

The number of women now represents 52.3% of the total enrollment.

Total headcount enrollment for the University of Nebraska decreased over the past year by 597 from 40,760 to 40,163; full-time students decreased 544 from 27,465 to 26,921; part-time students decreased 53, from 13,295 to 13,242; graduate students increased 35, from 6,297 to 6,332; and first-professional students decreased 88, from 1,494 to 1,406.

State Colleges reported increases in every category. Total headcount was up 689, from 14,186 to 14,875; full-time increased 553, from 9,186 to 9,739; part-time increased 136, from 5,000 to 5,136; and graduate enrollments increased 301, from 2,860 to 3,161.

Technical Community Colleges reported major increase in total and part-time enrollment and a decrease in full-time students. Total headcount was up 395, from 25,730 to 26,125; full-time was down 190, from 8,561 to 8,371; and part-time up 585, from 17,169 to 17,754.

Independent Colleges and Universities reported decreases in total headcount, full and part-time students and increased enrollment in graduates and first-professional. Total headcount was down 647, from 17,238 to 16,591; full-time was down 587, from 12,297 to 11,710; and part-time down 60, from 4,941 to 4,881. Graduate enrollments were up 36 from 574 to 610 and first-professional enrollments were up 70, from 1,264 to 1,334.

PREFACE

The headcount enrollment data in this report were reported by the Nebraska institutions of postsecondary education as part of the Higher Education General Information Survey (HEGIS). The HEGIS enrollment report is one of a series of reports which institutions file with the National Center for Education Statistics of the U. S. Department of Health, Education and Welfare each Fall. The Nebraska Coordinating Commission for Postsecondary Education coordinates the distribution of the HEGIS reporting forms to the institutions and the collection and return of completed reports to the National Center for Education Statistics (NCES).

The data in this report (enrollments for Fall 1981 through 1985) were taken from the following HEGIS reports.

Fall 1985:	"Fall Enrollment in Institutions of Higher Education - 1985"
Fall 1984:	"Fall Enrollment and Compliance Report of Institutions of Higher Education - 1984"
Fall 1983:	"Fall Enrollment in Institutions of Higher Education - 1983"
Fall 1982:	"Fall Enrollment and Compliance Report of Institutions of Higher Education - 1982"
Fall 1981:	"Fall Enrollment in Institutions of Higher Education - 1981"

The Commission wishes to acknowledge, with great appreciation, the cooperation and time the institutions devoted to reviewing and verifying the data contained in this report.

This report is being printed on microfiche.

DEFINITIONS

(The following definitions are those prescribed by the United States Department of Education and used by the institutions in preparing the HEGIS data presented in this report. They should, therefore, be incorporated into any analysis or interpretation of the report.)

UNDERGRADUATES. Students enrolled in an associate or bachelor's degree program, or in a vocational or technical program that is normally terminal and results in formal recognition below the baccalaureate degree.

FIRST-TIME FRESHMEN. Entering freshmen who have not previously attending ANY college. Include students enrolled in the fall term who attended college for the first time in the summer of 1984. Also include students who entered with advanced standing (college credits earned before graduation from high school) at the freshmen level.

UNCLASSIFIED STUDENTS. Not candidates for a degree or other formal award, although taking courses in regular classes with other students.

UNDERGRADUATE LEVEL OF UNCLASSIFIED STUDENTS. Includes but not limited to undergraduates who cannot be classified by class standing, for example, new transfer students. Also included are students who already have bachelor's degrees or awards below the baccalaureate degree, but are taking courses at the same level or lower. Included also are "special students" and teachers taking additional undergraduate courses for certification.

FULL-TIME STUDENTS. Those whose academic load (course work or other required activity) is at least 75% of your institution's normal full-time load.

FULL-TIME EQUIVALENT (FTE) ENROLLMENT OF PART-TIME STUDENTS. Convert part-time students (lines 15-28) into full-time equivalents by one of the following:

- (1) Use a method already employed in your institution to compute FTE's for some other purpose.

- (2) Sum the credit hours for part-time students and divide by the normal full-time credit-hour load. NORMAL FULL-TIME CREDIT-HOUR LOAD is usually determined by dividing the total number of credits required for completing the program by the institutionally defined length or program in terms, or by the number of terms required of a fully-engaged student to obtain such credits. Do not confuse this with the minimum number of credit-hours required for a student to be classified full-time (75% of a normal full-time load). NOTE: Divide by the normal full-time load, not by the minimum full-time load. For most institutions, this will be 15 credit-hours (not 12).
- (3) Assign a fractional value of full-time to each part-time student, appropriate to your institution, such as $\frac{1}{4}$, $\frac{1}{3}$, or $\frac{1}{2}$. Remember that a student taking $\frac{3}{4}$ (75%) or more of a normal full-time load should be classified as a full-time student.

INTRODUCTION

Fall headcount enrollment reporting is only one of several types of enrollment that might be used in analyzing patterns at the institutional, sector, state or national level. Depending upon the question being asked, the following counts might be appropriate: fall headcount, unduplicated headcount over a fiscal year, full-time equivalency, etc. Each type of enrollment count tells the reviewer something different about the statistics.

Fall headcount enrollment is normally used as an indicator of trends among and between institutions. The fall period is the time in which traditional collegiate institutions experience their peak enrollment period. Thus, by comparing one fall enrollment period with another, the reviewer can get a general understanding of whether the enrollments are increasing and the postsecondary educational enterprise is expanding, or whether enrollments are decreasing and the enterprise is contracting. Changes in student enrollment patterns also may be inferred from fall headcount statistics.

SUMMARY

The number of full-time faculty in Nebraska colleges and universities show a slight increase over the past five-year period; 3,522 in 1981-82 to 3,586 in 1985-86. However, figures reported show a decrease of 74 faculty members from those reported last year. Average salaries for this same time period increased \$4,681 (21%), from 22,436 to 27,117. Percentage changes for the sectors were as follows: University of Nebraska, 3% decrease in the number of faculty and 22% increase in average salary; State Colleges, 3% increase in faculty and 19% increase in salaries; Technical Community Colleges, 5% increase in faculty and 19% increase in salaries; and Independent Colleges and Universities, 8% increase in faculty and 23% increase in salaries.

Full-time faculty with academic rank of professor increased from 888 to 962 (8%); associate professors remained constant; assistant professors increased from 818 to 842 (3%); and instructors, lecturers decreased from 1,1013 to 981 (-3%).

The percentage of faculty which are tenured increased by 4% from 51% in 1981-82 to 55% in 1985-86. The percentage of faculty tenured in the State Colleges decreased from 70% TO 66% while tenured faculty increased at the University of Nebraska from 64% to 68%; increased at the Technical Community Colleges from 8% to 20%; and increased at the Independent Colleges and Universities from 50% to 51%.

Women faculty represented 25% of the total in 1981-82 (878) as compared to 27% in 1985-86 (965). Women represented 5% of the total number of professors in 1981-82 and 6% in 1985-86; and 15% of the associate professors in 1981-82 as compared to 20% in 1985-86.

During this period, the average salary for men professors increased by 20% as compared to 22% for women; the average salary for men associate professors increased 18% as compared to 14% for women. However, salaries for men at both the professor and associate professor rank are still substantially above those of women at comparable rank.

PREFACE

The information contained in this report was reported by the Nebraska institutions of postsecondary education as a part of the Higher Education General Information Survey (HEGIS). The HEGIS full-time instructional faculty report is part of a series of reports institutions file annually with the National Center for Education Statistics (NCES) of the U.S. Department of Education. The Nebraska Coordinating Commission for Postsecondary Education coordinates the distribution of the HEGIS reporting forms to the institutions, and collection and return of completed reports for the National Center for Education Statistics.

The Commission wishes to acknowledge with appreciation the cooperation and time the institutions devoted to reviewing and verifying the data contained in this report.

The material presented in this report is open for comment and discussion and is provided for general information purposes to the Governor, the Legislature, and the Nebraska postsecondary education community. Comments should be directed to:

Nebraska Coordinating Commission for Postsecondary Education

INTRODUCTION

The following tables provide, in summary form, data regarding full-time instructional faculty. It should be noted that these data do not include all the faculty an institution may have that are providing instructional services as, for example, the data do not include information on part-time faculty. It is, therefore, inappropriate to draw conclusions from these data related to the number of Full-Time Equivalent (FTE) faculty.

Special note must be paid to the average salaries reported herein. These are nine (9) month average salaries (the normal manner used for reporting average salaries of full-time instructional faculty). The formula used to derive these average salaries is a standard nationwide formula. The formula is as follows: $9/11 \times 12\text{-month faculty Salary Outlay} + 9\text{-month faculty Salary Outlay} = \text{Total and Converted 9-month Salary Outlay}$. This Total and Converted 9-month Salary Outlay is then divided by the total number of faculty (in total or by the respective academic ranks) to determine the average salary. The salary data reported herein do not include the fringe benefits the faculty receive from their respective institutions.

Comparability of the average faculty salaries, by rank, contained in this report is limited also by the use of a single and general formula used for the purpose of computing the average faculty salary.

Due to the limitations cited above, these data need to be reviewed carefully and generally. While these data are being presented for information purposes, it would be a mistake to interpret too literally without investigating some of the factors behind the apparent differences among and between institutions and institutional sectors that limit the comparability of the information contained in this report.

The data presented in this report may differ from that anticipated by the reader. Some of the differences may be attributable to the following exclusions from data reported:

1. Instructional faculty who are employed to teach less than two semesters, three quarters, two trimesters, or two 4-month trimesters, or two 4-month sessions.
2. Instructional faculty for preclinical and clinical medicine. (Instructional faculty in all other health fields, such as dentistry, veterinary medicine, nursing, dental hygiene, etc., are included.)

3. Instructional faculty who are employed on a part-time basis.
4. Administrative officers with titles such as Dean of Instruction, Academic Dean, Dean of Faculty, Dean of Students, Librarian, Registrar, Coach, etc., even though they may devote part of their time to classroom instruction.
5. Undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching associate, teaching fellow, etc.

SUMMARY

Revenue realized from tuition and fees increased \$41.6 million, or 46% over the past five-year period. State appropriations during that same period rose by \$47.4 million, an increase of 29%. In 1981, tuition and fees represented 23% of total revenues, with state appropriations accounting for 42%. In 1985, the percentages were 24% and 38% respectively. The gain in federal grants and contracts, \$26.8 million (61%), is due in large part to a change in the HEGIS financial statistics report in 1983 requiring institutions to report Pell Grants as institutional revenue as part of federal grants and contracts, thus skewing the five-year trend data.

Tuition income at the University of Nebraska increased \$14.6 million (43%) over the five-year period while state appropriations increased \$36.1 million (28%). Tuition income represented 16% of total revenue and state appropriations 54% for 1985.

At the State Colleges, tuition income increased \$3.7 million (50%) while state appropriations increased \$5.8 million (29%), representing 24% and 56% of total revenue generated in 1985.

Tuition revenue at the Technical Community Colleges increased \$2.6 million (34%), state appropriations increased \$5.4 million (31%) and local appropriations increased \$6.0 million (32%). Percentages of total revenue were 14%, 33%, and 35% respectively.

For the Independent Colleges and Universities, tuition revenue increased \$20.8 million (49%); private gifts, grants, and contracts increased \$4.2 million (29%); and endowments increased \$1.4 million (44%); representing respectively 48%, 14%, and 4% of total revenue in 1985.

Expenditures reported over the same five-year period show that the percentage allocated to instruction has decreased in all institutional sectors, likewise the percentage spent on public service. Research, academic support, student services and plant operation show a stable condition or slight decline. All sectors report major increased expenditures for scholarships and fellowships.

PREFACE

The information contained in this report was reported by the Nebraska institutions of postsecondary education as a part of the Higher Education General Information Survey (HEGIS). The HEGIS financial statistics report is part of a series of reports institutions annually file with the National Center for Education Statistics (NCES) of the U.S. Department of Education. The Nebraska Coordinating Commission for Postsecondary Education coordinates the distribution of the HEGIS reporting forms to the institutions, the collection and return of completed reports for the National Center for Education Statistics.

This report reflects information from one of the six groups of funds generally managed by institutions of higher education. The fund group included herein is the Current Funds. Not included are revenues and expenditures related to the other five fund groups: Loan Funds, Endowment and Similar Funds, Annuity and Life Income Funds, Plant Funds, and Agency Funds. Each of the fund groups are defined below.

FUND GROUPS

1. Current Funds. This fund group includes all of those resources used, or available for use, in carrying out those operations directly related to the institution's educational objectives. It also includes the monies associated with the operation of the institution's auxiliary enterprises. This fund group generally is shown in financial reports as two distinct subgroups--"Current Fund - Unrestricted" and "Current Fund - Restricted." Monies in the "Current Fund - Unrestricted" subgroups are available for any purpose in the Current Fund or any other fund group. Monies in the "Current Fund - Restricted" subgroup are restricted to a very specific aspect of the institution's current operation.
2. Loan Funds. This fund group consists of those resources that have been loaned or are available for loans to students, faculty, and staff. The unrestricted and restricted fund balances generally are shown separately in financial reports. Unrestricted funds in the loan fund group are funds that have been "designated" for loan purposes by the governing board. Restricted loan funds have been restricted for loan purposes by the funder.

3. Endowment and Similar Funds. This fund group includes funds whose principal is nonexpendable and that are intended to be invested to provide earnings for institutional use. Two methods of determining the earnings available for use are employed currently by higher education institutions. One method stipulates that only current yield (ordinary income such as "interest and dividends" on the investment of endowment funds may be used. The second method (known as the "total return concept") allows for a portion of the capital gains of invested endowment funds to be used also. Both methods of determining expendable endowment earnings are generally accepted accounting practices--the institution's governing board generally decides which procedure is appropriate for its institution's particular needs.
4. Annuity and Life Funds. This fund group includes all funds carrying a stipulation that the institution make payments to one or more specified beneficiaries. If the institution is obligated to pay the beneficiary a stipulated amount, the fund is classified as an annuity fund. If the institution agrees to pay only the income earned by the assets of the fund or a stipulated percentage of its market value, it is classified as a life income fund. Upon the death of the beneficiary, or at some agreed upon date, the principal of the annuity or life income fund becomes the property of the institution. It then is available for use at the discretion of the institution or in accordance with the terms of the agreement. Annuity funds and life income funds generally are maintained as two separate subgroups, but are combined for reporting purposes.
5. Plant Funds. Fund accounting reports the institution's physical plant assets in a separate fund group rather than reporting them as assets in several fund groups. The Plant Fund includes all of the institution's physical plant assets as well as the monies that are set aside to be used to fund new construction or acquisitions, debt service on plant, and renewal and replacement reserves.
6. Agency Funds. The institution often acts as the fiscal agent for funds it does not own. In such cases, the institution usually is provided accounting services to the organization or person(s) to which the monies belong. All funds the institution holds as custodian or fiscal agency for student organizations, individual students, faculty members, and so forth are reported as agency funds in these fund groups. However, when agency funds are not a material item, they may be reported as an element in the Current Fund. Whenever the purpose of a particular report or financial statement is to disclose the total resources available for use by the institution, agency funds are excluded or simply footnoted.

As indicated above, the information reported in this report is solely Current Fund information and of the Current Fund, only Education and General Current Fund Revenues and Expenditures are reported. Education and General are defined as follows:

Educational and General. This term is used to describe all operations related to instruction, research, public service, academic support, student services, operation and maintenance of plant, institutional support, and scholarships and fellowships. Excluded are expenditures for auxiliary enterprises and hospitals. In financial reports, the term Educational and General represents an aggregation of "functional" expenditure categories.

The Commission wishes to acknowledge with appreciation the cooperation and time the institutions devoted to reviewing and verifying the summary data contained in this report.

INTRODUCTION

The financial information contained in this report reflects institutional Educational and General revenue items and Education and General Expenditure items.

By definition, Education and General Revenues include current fund revenue from: Tuition and Fees; State Appropriations, Local Appropriations, Federal Appropriations, Grants and Contracts; Other Gifts, Grants and Contracts; Endowment; and revenue from other sources. It excludes revenue from the Sales and Services of Auxiliary Enterprises, Sales and Services of Hospitals, and income from Independent Operations. These data were taken from Part A of the HEGIS financial statistics report.

The total for Education and General Revenue, as taken from Part A of the reporting survey, is the summation of the following revenue sources:

- a. Tuition and Fees (Part A, Line No. 1)
- b. State Appropriations (Part A, Line No. 3)
- c. Local Appropriations (Part A, Line No. 4)
- d. Federal Appropriations, Grants and Contracts (Part A, summation of Lines 2, 5, and 6)
- e. Other Gifts, Grants, and Contracts (Part A, summation of Lines 7, 8, 9, 10, 11, and 12)
- f. Endowments (Part A, summation of Lines 13 and 14)
- g. Other Revenue (Part A, summation of Lines 15 and 18)

It should be noted that both restricted and unrestricted forms of revenue are included in the Current Fund Education and General Revenue Total. Due to the inclusion of restricted institutional revenue, the revenue data reported in this report may be different from budgetary information reported by some institutions.

Institutions are given the following instructions in reporting the current fund items for Part A of the financial statistics report. While these are reporting instructions, they provide definition to the revenue items for those persons reviewing these data and this report.

Instructions for Part A. Current funds revenues include all unrestricted gifts and other unrestricted revenues earned during the fiscal year and restricted current funds to the extent that such funds were expended for current operating purposes.

Line 1 Tuition and Fees. Report all tuition and fees assessed against students for current operating purposes. Include tuition and fee remissions for exemptions even though there is no intention of collecting from the student. Include here those tuitions and fees which are remitted to the State as an offset to the State appropriations. (Charges for room, board, and other services rendered by auxiliary enterprises are not reported here. See line 16.)

Lines 2, 3 & 4 Governmental appropriations include all amounts received from or made available to the institution through acts of a legislative body, except grants or contracts. These funds are for meeting current operating expenses and NOT for specific projects or programs. Examples are Federal land-grant appropriations and Federal revenue sharing funds (line 2). Federal appropriations received through State channels is a subset of line 2 and should be included in the line 2 total for Federal appropriations.

Lines 5-10 Governmental grants and contracts. Report revenues from governmental agencies which are for specific research projects or other types of programs. Examples are research projects, training programs, and similar activities for which amounts are received or expenditures are reimbursable under the terms of a government grant or contract. Amounts equal to direct costs incurred should be recorded as charges against current restricted funds and reported as restricted current funds revenues (lines 6, 8, and 10). Related indirect costs recovered should be reported as unrestricted revenues (lines 5, 7, and 9). Include Pell Grants (formerly BEOG's).

Lines 11 & 12 Private gifts, grants, and contracts. Private gifts and grants include revenues from private donors for which no legal consideration is involved. Private contracts include those funds for which specific goods and services must be provided to the funder as stipulation for receipt of the funds. Include only those gifts, grants, and contracts that are directly related to the instruction, research, or public services. Monies received as a result of gifts, grants, or contracts from a foreign government would be reported here. Include the estimated dollar amount of contributed services on line 11.

- Lines 13 & 14 Endowment income. Report: (1) the unrestricted income of endowment and similar funds; (2) restricted income of endowment and similar funds to the extent expended for current operating purposes; and (3) income from funds held in trust by others under irrevocable trusts. Do not include capital gains or losses. If any such gains are spent for current operations, these should be treated as transfers, not revenues.
- Line 15 Sales and Services of educational activities. Report revenues derived from the sales of goods or services that are incidental to the conduct of instruction, research, or public service. Examples include film rentals, scientific and literary publications, testing services, university presses, and dairy products.
- Line 16 Sales and services of auxiliary enterprises. Report here all revenues generated by the auxiliary enterprise operation of the institution. Auxiliary enterprises are managed as essentially self-supporting activities. Examples are residence halls, food services, student health services, college unions, college stores, barber shops, etc. (This item is not included in Education and General Revenue Totals.)
- Line 17 Sales and Services of hospitals. Include the revenues (net of discounts and allowances) of a hospital operated by the institution. DO NOT include here gifts, grants, appropriations, research revenues, or endowment income. Include revenues of health clinics that are part of the hospital unless such clinics are part of the student health services program. (This item is not included in Education and General Revenue Totals.)
- Line 18 Other sources. Include all items of revenue not covered elsewhere. Examples are interest income and gains (net of losses) from investments of unrestricted current funds. Include revenues resulting from the sales and services of internal services departments of persons or agencies external to the institution (e.g., the sale of computer time).
- Line 19 Independent Operations. Include all revenues associated with operations independent of or unrelated to the primary mission of the institution (i.e., instruction, research, public service) although they may indirectly contribute to these programs. This category generally includes only those revenues associated with major Federally Funded Research and Development Centers. (This item is not included in Education and General Revenue Totals.)

- Line 20 Total current funds revenues. Report here the sum of lines 1 through 19 inclusive.
- Line 21 Pell Grants. Report the amount of Pell Grants received (but only to the extent disbursed) by your institution. This amount should be included on Part A, Line 6.

Education and General Expenditures, by definition, includes current fund expenditures for: Instruction; Research; Public Service; Academic Support; Student Services; Institutional Support and Operation and Maintenance of the Physical Plant; Scholarships and Fellowships; and Educational and General Mandatory Transfers. Education and General Expenditures excludes expenditures related to Auxiliary Enterprises, Hospitals, and Independent Operations. These latter three items are included, however, in Total Current Funds Expenditures and Mandatory Transfers reported by the institutions. These expenditures data were taken from Part B of the HEGIS financial statistics report.

The total for Education and General Expenditures, as taken from Part B of the reporting survey, is the summation of the following expenditure items:

- a. Instruction (Part B, Line 1)
- b. Research (Part B, Line 2)
- c. Public Service (Part B, Line 3)
- d. Academic Support (Part B, Line 4)
- e. Student Services (Part B, Line 6)
- f. Institutional Support and Operation and Maintenance of Plant (Part B, summation of Lines 7 and 8)
- g. Scholarships and Fellowships (Part B, summation of Lines 9 and 10)
- h. Educational and General Mandatory Transfers (Part B, Line 11)

As with the revenue portion of this report, the expenditures include restricted and unrestricted current fund expenditures. The inclusion of both types of expenditure for the functional areas shown may cause these data to be slightly different from the budgetary data reported by some institutions.

The instructions provided the institutions for reporting current expenditures, and which provide definition for the expenditure categories, are as follows:

- Line 1 Instruction. Expenditures of the colleges, schools, departments, and other instructional divisions of the institution and expenditures for departmental research and public service which are not separately budgeted should be included in this classification. Include expenditures for both credit and noncredit activities. Exclude expenditures for academic administration where the primary function is administration (e.g., academic deans). This category includes the following subcategories: general academic instruction; occupational and vocational instruction; special session instruction; community education; preparatory and adult basic education; and remedial and tutorial instruction conducted by the teaching faculty for the institution's students.
- Line 2 Research. This category includes all funds expended for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. Do not report non-research sponsored programs (e.g., training programs).
- Line 3 Public Service. Report all funds budgeted specifically for public service and expended for activities established primarily to provide noninstructional services beneficial to groups external to the institution. Examples are seminars and projects provided to particular sectors of the community. Include expenditures for community services and cooperative extension services.
- Line 4 Academic Support. This category includes expenditures for the support services that are an integral part of the institution's primary missions of instruction, research, or public service. Include expenditures for libraries (line 5), museums, galleries, audio/visual services, academic computing support, ancillary support, academic administration and personnel development, and course and curriculum development. (Include line 5 expenditures in the line 4 total for academic support.) Line 4 is NOT the sum of lines 1, 2, and 3.
- Line 6 Student Services. Report funds expended for admissions, registrar activities, and activities whose primary purpose is to contribute to students' emotional and physical well being and to their intellectual, cultural, and social development outside the context of the formal instruction program. Examples are career guidance, counseling, financial aid administration, student health services (except when operated as a self-supporting auxiliary enterprise). Include the administrative allowance for Pell Grants.

- Line 7 Institutional Support. Report expenditures for the day-to-day operational support of the institution, excluding expenditures for physical plant operations. Include general administrative services, executive direction and planning, legal and fiscal operations, and community relations.
- Line 8 Operation and Maintenance of Plant. Report all expenditures for operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes. Do not include expenditures made from the institutional plant funds accounts.
- Lines 9 & 10 Scholarships and Fellowships. This category applies only to monies given in the form of outright grants and trainee stipends to individuals enrolled in formal coursework, either for credit or not. Aid to students in the form of tuition or fee remissions should be included. (Exclude those remissions which are granted because of faculty or staff status. Charge these to staff benefits.) **DO NOT** report College Work Study Program expenses here; report these expenses where the student served (e.g., dining halls, line 14; for a professor, line 1, etc.). If necessary, estimate. Include Pell Grants on line 10.
- Line 11 Educational and General Mandatory Transfers. Mandatory transfers from current funds are those that must be made in order to fulfill a binding legal obligation of the institution. Report mandatory debt-service provisions relating to academic and administrative buildings, include (1) amounts set aside for debt retirement and interest, and (2) required provisions for renewal and replacements to the extent not financed from other sources.
- Line 12 Total Educational and General Expenditures and Mandatory Transfers. Enter here the sum of lines 1 through 4 plus 6 through 11. (**This is the Educational and General Expenditure Total used in this report.**)
- Line 13 Mandatory Transfers for Auxiliary Enterprises. Report the amount transferred from current funds for mandatory debt service provisions relating to auxiliary enterprises. Examples include maintenance reserves.
- Line 14 Auxiliary Enterprises. This category includes those essentially self-supporting operations which exist to furnish a service to students, faculty, or staff, and which charge a fee that is directly related to, although not necessarily equal to, the cost of the service. Examples are residence halls, food services, college stores, and intercollegiate athletics. (Include the mandatory transfers amount on line 13 in the line 14 amount.)

- Line 15 Mandatory Transfers for Hospitals. Report the amount transferred from current funds for mandatory debt service provisions relating to hospitals.
- Line 16 Hospitals. Report all expenditures except depreciation, associated with the operation of the hospitals, including nurses expenses, other professional services, general services, administrative services, fiscal services, and charges for physical plant operations. (Include the mandatory transfers amount on line 15 in the line 16 amount.)
- Line 17 Mandatory Transfers for Independent Operations. Report the amount transferred from current funds for mandatory debt service provisions relating to independent operations.
- Line 18 Independent Operations. Include all funds expended for operations that are independent of or unrelated to the primary missions of the institution, although they may indirectly contribute to the enhancement of these programs. This category is generally limited to expenditures of a major Federally Funded Research and Development Center. Do not include the expenditures of operations owned and managed as investments of the institution's endowment funds. (Include the line 17 amount in the line 18 amount.)
- Line 19 Total Current Funds Expenditures and Mandatory Transfers. Report the sum of lines 12, 14, 16, and 18.

NOTE: The terms "Education and General" and "Educational and General" are used interchangeably.

SUMMARY TABLES

The two summary tables which follow compare the current fund education and general income (revenue) and expenditures for the fiscal years ending 1981 and 1985. It should be noted that the amounts have been rounded to the nearest one thousand dollars. Table I displays current fund education and general income, Table II displays education and general expenditures for all institutional sectors for the two years identified above.

The third column of each sector, and the state totals, should be read across, rather than vertically. The four-year changes show both the change in dollar amounts and percentage.

Those who review these data are cautioned from drawing too specific interpretations from these summary tables, as they do have limitations. The data reported are limited by institutional and state policies, which may have changed during the time in which these are reported, that would affect the information shown. While the reporting instructions are the same for each institution, they are sometimes interpreted differently by some reporting officers which would affect the data. In addition, personnel in the offices reporting these data may have changed and this may lead to one individual reporting the data differently than his/her predecessor.

INSTITUTIONAL ABBREVIATIONS

The following five (5) tables show the percentage of the total educational and general revenue derived from various sources of revenue for each fiscal year. In addition, the percentage of the total education and general expenditures by expenditure categories is shown for each fiscal year. Each table is one fiscal year and each is formatted the same with the revenue sources and expenditure categories described on the left margin (rows) and the institutions (designations are abbreviated), and institutional sectors at the top of the tables (columns).

The following abbreviations are used for purposes of designating the institution.

University of Nebraska

UNL	University of Nebraska-Lincoln
UNO	University of Nebraska-Omaha
UNMC	University of Nebraska Medical Center

Nebraska State Colleges

CSC	Chadron State College
KSC	Kearney State College
PSC	Peru State College
WSC	Wayne State College

Nebraska Technical Community College Areas

Cent.	Central Technical Community College Area
Metro.	Metropolitan Technical Community College Area
M.P.	Mid-Plains Technical Community College Area
